## Balding

The Saini Herb Scalp and Hair Conditioner has proven to be an effective remedy for Balding and the conditioner has helped thousands of men, women and children, and in addition to being able to resolve Balding, the all natural remedy will encourage new hair growth. Balding is not uncommon and there are many men who suffer from Balding, and many women and children battle with Balding, due to stress, environmental pollutants, hair dyes and perms, or hereditary Balding, however thanks to our effective Hair Loss Remedies, premature Balding can be prevented. Those who suffer from Balding, will try various cures and remedies, however, the fact is that many if not most of these cures are not successful and furthermore, many Balding treatments contain harmful or damaging toxins, which may have long term side affects. One of the treatments for Balding is surgery and during this treatment the surgeon will implant hair follicles and this is an effective balding treatment, however, the surgery is very expensive. There are drugs on the market which are said to combat Balding; however few of these treatments have yet to receive approval from the FDA. Saini Herb is a 100% all natural and pure treatment and to this end, there are no side affects but a great looking, head of hair will result.

Our natural balding treatments have been used for three thousands years and although, the packaging has undergone many changes over the last three thousand years, the ingredients have remained unchanged. The Balding remedy was first discovered at the foot of the Himalayas in India, and the herbs were applied directly to the thinning hair and after frequent use, Balding was reversed. Balding can occur in men of all ages, and even though men are usually worst affected by Balding, Balding can also occur in women and in children. Balding usually leads to a lowered self confidence and self esteem, and at such, individuals are continually looking for remedies and cures which will combat Balding.

Saini Herb was used in a study which involved 300 participants, and these individuals made use of our product for a period of three months. The results which were obtained in the study were incredible and more than 90% of the participants found that Balding had stopped and over 80% of the participants experienced new hair growth, while 97% of the participants stated that they would continue to use this effective Balding remedy. Other remedies were proven not to be effective, but we are committed to providing the very best remedies and cures that work and with frequent use will prevent Balding and lead to new hair growth. Saini Herb has been marketed in Europe for ten years and at first Saini Herb was used a remedy to combat dandruff and later Balding and since the product is 100% natural, there are no worrying side affects and it is one of the Balding remedies which is safe for use on children, who are experiencing hair loss. Feel free to find out more about this remarkable product, by visiting our website.

## AYURVEDA

### What is Ayurveda?

*in sanskrit, ayur means life and veda means science ayurveda, then, lifeary mean life-science.*
