Hormone Therapy

What is Bioidentical Hormone Therapy?

decline in the amount of hormones naturally produced by our bodies - and the lack of these hormones makes us look and feel old. Bioidentical Hormone Therapy refers to a program of administered hormones, which are an exact match to those naturally produced by our bodies. In terms of Bioidentical Hormone Therapy, we particularly recommend Human Growth Hormone – HGH – or testosterone to restore your youthful appearance, outlook and vitality. **Human Growth Hormone Therapy**

qualities that we typically associate with youth. With a program of Growth Hormone Therapy, you can restore your HGH levels and regain the wonderful qualities of youth. For example, benefits of Human Growth Hormone Therapy include: Weight Loss (even without diet and exercise) Increased Energy and Stamina

- Increased Focus and Memory
- Increased Skin Elasticity (younger-looking, smoother skin)
- Heightened sense of well being, emotional stability and reduction of stress
- Increased Muscle Mass and Flexibility
- Increase in Sexual Desire and Performance Deeper, More Restful Sleep
- Thickening Hair Sharper Eyesight
- Reduced Cholesterol Levels
- Reduction of Cellulite
- Decrease in Muscle and Joint Pain Increased Bone Density
- Increased metabolism
- Healthier Heart Rate Improved immunity, including resistance to flu and colds
- Faster Healing of Wounds and Recovery from Illness
- What is Natural Hormone Therapy?

testosterone, is an exact replica of the hormone made by your body. Therefore, the body accepts it as its own naturally-produced hormone. Hence, the name Natural Hormone Therapy. How is Bioidentical Hormone Replacement Therapy Administered? We recommend that your bioidentical hormone replacement therapy is administered via

your options. **GET STARTED** First name Age Gender

Bioidentical Hormone Therapy is the method by which we replace depleted hormone

levels, so that the patient actually looks and feels young again. As we age, there is a steep

Human Growth Hormones, or HGH, are naturally produced by our bodies' pituitary gland. The production of these hormones provide us with the

Bioidentical Hormone Therapy is known by a variety of different names – hormone replacement therapy, natural hormone therapy, HRT, etc. The reason it is often referred to as Natural Hormone Therapy is because the hormone we prescribe, whether HGH – Human Growth Hormone – or

injectable hormones. This is because pills and sprays have proven ineffective and are, frankly, a waste of your money. We want you to feel the full and wonderous benefits of Bioidentical Hormone Replacement Therapy. We have found that injectable HGH Human Growth Hormone and injectable testosterone are the only really effective forms of Bioidentical Hormone Replacement Therapy available. We do also prescribe creams, which can be almost as effective as injections, but these should not be used around children. Please talk to our Bioidentical Hormone Therapy doctors about

Bioidentical Hormone Therapy for men is life-changing – testosterone replacement therapy eliminates the above symptoms and more – as if the aging process were actually reversing! Once Bioidentical Hormone Therapy for men is administered, you can start living life to the full again, but this time around, you are far wiser! Youth is no longer wasted on the young with Bioidentical Hormone Therapy for men!
